# Toys Lost In Space

Jamie Hilton

Izzy Hilton

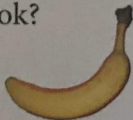

Written by Jamie Hilton  
Illustrated by Glen & Jo Hilton

Welcome!

This book was created by the Hilton family while in lockdown due to Covid-19 in June 2020. It was written by Jamie Hilton aged 6. All the pictures were created in our house using the everyday objects that we could find around the house.

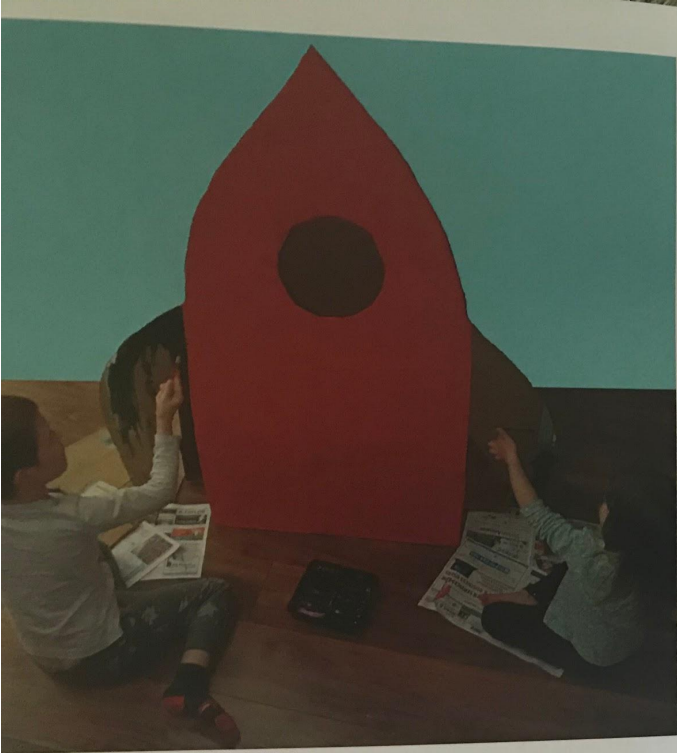

Oh and before you go can you spot all the bananas used in the book?

Good luck and we hope you enjoy the story!

Once upon a time Jamie and Izzy were building a rocket.

They worked and they worked  
and they worked to build the  
rocket.

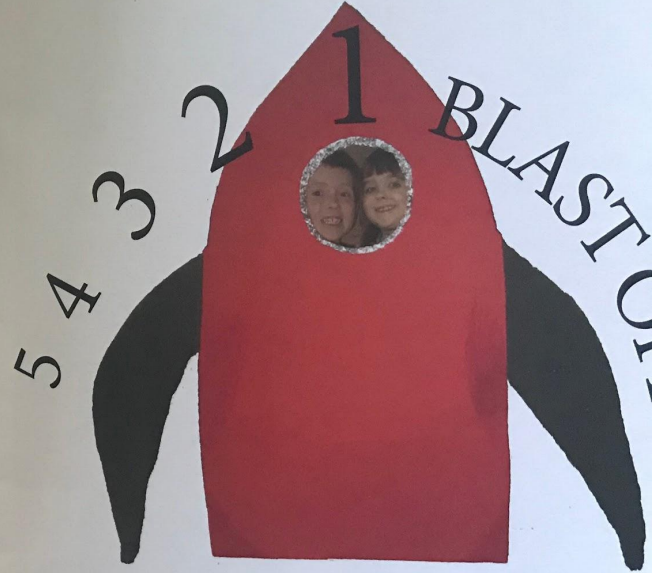

When they were done they  
added some buttons to press,  
to go to the moon.

Then they got things to take  
with them. They took snacks,  
chocolate, bananas, apples,  
travel sweets, pears and water.

Jamie took T-Rex and Izzy took  
baby and Doggy.

Then they were ready to go to the  
moon!

Jamie counted down  
5...4..3..2..1..  
**BLAST OFF!!!**  
While Izzy played with  
Baby and Doggy.

When Izzy and Jamie blasted off from Earth, they saw the Moon, so they headed for it.

Izzy and Jamie both kept looking out of the window to see which way to go to the Moon.

Jamie and Izzy landed on the Moon! They got out of their rocket with their toys, holding onto them tightly, they went for a Moon walk.

But... when they were walking they accidentally let go of their toys....

T-rex held onto Doggy even though they were not alive as they floated off into space.

The toys were heading to Mars in a Vortex! Doggy's lead was very twisted because of the vortex they went through.

T-rex was still holding onto Doggy's lead when they headed towards Mars.

Jamie and Izzy saw the vortex,  
it was so strong and they  
thought that maybe the toys  
were in there. So they headed  
to Mars.

When they got to Mars, Izzy  
saw T-Rex and Doggy, they were  
floating on top of the biggest  
mountain on Mars.

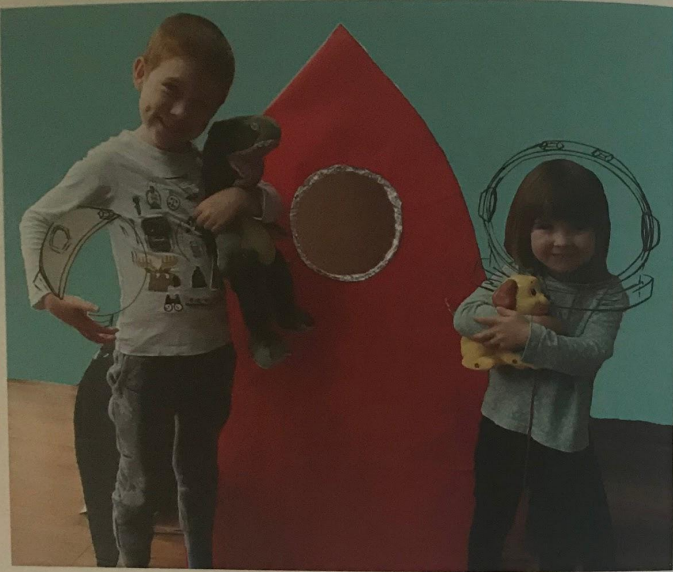

Their mission was to climb the  
mountain to rescue their toys.

When Izzy and Jamie got their toys back they were so happy that they had found them again they hugged them tightly and even kissed them.

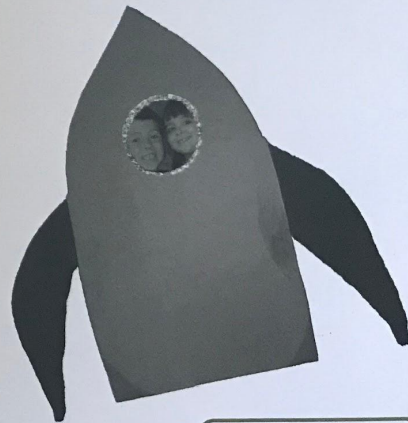

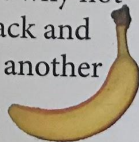

Jamie and Izzy were ready for home. They took off in their rocket once more to go back home with their toys who were now safely back with them.

Izzy and Jamie were home at last! 'What an adventure we had' said Jamie to Izzy.

Thank you for reading!  
We hope you enjoyed  
reading our space  
adventure as much as we  
enjoyed creating it.

Did you find  
all 3 of the  
bananas?  
Well done if  
you did! if you  
didn't why not  
go back and  
have another  
look.

Jamie aged 6  
&  
Izzy aged 3
