Problem Solving

What is problem solving?

Problem solving is finding a solution to an issue, task or dilemma

- Problem solving is about finding ways to get an answer to a dilemma

How to solve a problem

- Having a plan helps you collect your thoughts and ideas, it allows you to think about how and what you are going to do before you start to solve the dilemma

4 basic steps to help solve a problem

1. Discover what the problem is
2. Think of different ways to solve the problem
3. Choose the best way you think will solve the problem
4. Use your chosen way to solve the problem

Everybody faces a challenge or problem at some time in their lives

Global warming

Global warming or Climate change is the process of our planet warming up

- Scientists think that human activity has caused the Earth to warm up by 1 degree
- Climate is the average weather conditions in a place over 30 years or more
- Climate change makes our weather more extreme and unpredictable
- Lots of animals (and Humans) may find they are not able to adapt to their changing climate

Time Management

What is time management?

- Time management is planning and using your time wisely so that you can find a good answer or solution that will work in the quickest possible way

How time management can help with problem solving

- Managing your time can help you focus on the problem
- It can get the problem solved as quickly as possible
- Managing time to solve a problem is important

The World of Work

- Skills and interests help people take on a paid job
- There are different ways that we can get money, **work, do a job or provide a service, win it in a competition, borrow it from a bank or friend**

Earning money

- Earning money means you exchange something, a skill, your time, or a service for an agreed amount of money. You are paid by someone or a group of people who employ you

Making money

- Making money is when you use your own time, energy, creativity and get paid over and over for it. It allows you to be independent and not dependent on someone else controlling your wealth potential on a regular basis
